ABOUT ME

Hi! I'm Kaleb, a 27-year-old industrial designer. My interest in knowledge, science, processes and extreme curiosity led me to become passionate for answers. I believe in design as a way to solve everyday life problems in different ways: holistically, honestly and fairly. I enjoy design as a multidisciplinary platform where observing user needs and being democrat in solutions will make our environment a better place to be.

EDUCATION

2008 - 2013	Tecnológico de Monterrey (ITESM), Mexico Diseño Industrial
2012 Jan - Jun	Carl Mamlsten Furniture Studies, Suecia Erasmus

SKILLS

Personal		Softwares
