vapor from heated material. Do not allow hot material to contact skin. Provide appropriate		
exhaust ventilation at places where dust is formed. Try to avoid creating dust.		
7.2 Conditions for safe storage, including any incompatibilities		
Store at ambient temperatures in closed containers. This material can catch fire if overheated.		
Do not heat this material above the flash point. Keep away from flame and open electrical coils.		
No chemical incompatibilities.		
Section 8 Exposure Controls/Personal Protection		
8.1 Control parameters		
Components with workplace control parameters		
Wax Fume ACGIH STEL: 2 mg/m3 NIOSH TWA: 2 mg/m3		
8.2 Exposure controls		
Appropriate engineering controls		
Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of		
mists and/or vapors below the recommended exposure limits (see below). An eye wash station		
and safety shower should be located near the workstation.		
8.3 Personal protective equipment		
Eye/face protection		
Use a full-face shield and safety glasses if handling heated material. With product at ambient		
temperatures, use safety glasses equipped with side shields.		

# Section 8 Exposure Controls/Personal Protection cont.

#### 8.4 Skin protection

# **Hand Protection**

When handling product at elevated temperatures, use heat-resistant gloves. With product at ambient temperatures, use disposable nitrile, neoprene or butyl rubber gloves with repeated or prolonged use.

#### **Body Protection**

Prevent skin contact when handling heated material. Use insulated, heat resistant clothing such as apron or slicker suit.

# 8.5 Respiratory Protection

The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, a NIOSH-approved organic vapor respirator equipped with a dust/mist prefilter should be used.

### 8.6 Safety Stations

Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### **8.7 General Hygienic Practices**

Avoid breathing dust, vapor or mist. Avoid contamination of food, beverages, or smoking materials. Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse.
